John Carvalho's Book "The Crisis Of Our Time" Has Renewed Relevance For Europe, U.S., And The World During Pandemic Age

Worldwide Pandemic And Economic Meltdown Gives Renewed Interest In Book "The Crisis Of Our Time" Because Issues It Warned About Earlier Have Become Reality

LOS ANGELES, CALIFORNIA, UNITED STATES, July 27, 2020 /EINPresswire.com/ -- Dr. John Carvalho's provocative book "The Crisis Of Our Time" was published in 2014, and was lauded for its discussion of critical issues afflicting Europe, America, and the world at large: global health and spread of infectious diseases, economic recession, planetary climate change, and the psychological stress that people encounter when they try to find meaning in their lives. The advent of the COVID-19 pandemic and concurrent economic meltdown has left households socially distant and has helped the book industry to gain readers. Additionally, it has sparked renewed interest in Carvalho's opus given that the issues he warned about six years earlier have become reality.
